

Story-Pod technology arrives at the Jewish Holocaust Centre

Invitation to Participate

One of the core aims of the the Jewish Holocaust Centre is to be innovative. We are embarking on a very exciting chapter; the Museum Upgrade which is vital to our long-term vision.

This upgrade will include a new permanent display but more excitingly, the installation of new technology - **'Story-Pods'**. These 'Story-pods' will allow us to record additional Volunteer Survivor testimonies which is not only vital in maintaining their memories but they are also an excellent educational tool which will enable us to keep up with technology and continue educating people, particularly the 16,000+ students that visit annually.

As the Centre moves to an era where the physical presence of survivors is diminishing, the need for us to capture their stories and to improve and expand our permanent display has become more urgent.

Our hope is to have 20 individual stories included in our Story-Pod installation and we ask you to please consider the following options to help us do this.

- \$15,000** Design, development and installation of content into each individual Story-Pod
- \$10,000** Purchase of one roving Story-Pod touch station for off-site use
- \$5,000** Digitisation of photos and original documents
- \$1,800** Fund individual Story-Pod screens – per touch screen
- \$1,000** Edit survivor testimonies and include video clips – per story

There are naming rights opportunities available in the new Museum for gifts over \$20,000.

Please contact Helen or Nicole for further information.
